## 2020 Virtual Summer Enrichment Program (SEP)

For the first time, ACCESS will hold a Virtual Summer Enrichment Program (SEP) for children ages 5-13 (entering grades K2-6). Due to the COVID-19 situation, we moved our annual SEP to online in order to continue providing high-quality, holistic care to our students.

This summer, our focus is regaining the lost learning time in school through daily English language arts and mathematics lessons in the mornings and enrichment specialties in the afternoons. Knowing the impacts of screen time on child development, we have included several breaks throughout the day to have your child off-screen and moving. We recognize that this will be a chance to learn and grow in self-discipline. To accompany the online learning, we will have paper materials ready for each session to deliver or mail to your child. Each day's work will be clearly labeled and sealed so that your child knows what packet to use when. Please see below for the session dates and sample schedules. Please know that the daily schedules are tentative and can change.
